DIGITAL SOLUTIONS, INC.

This Prospectus covers 3,428,695 shares of common stock, \$.001 par value (the "Shares") of Digital Solutions, Inc. (the "Company"), which Shares are presently issued and outstanding and held by certain shareholders (the "Selling Security Holders") or shall be issued by the Company upon exercise of outstanding Common Stock purchase warrants and Non-Executive Director Stock Options including (i) 2,438,802 Shares issued and outstanding; (ii) 252,013 Shares issuable pursuant to the exercise of outstanding Common Stock purchase warrants issued to certain selling agents (the "Selling Agent Warrants"); (iii) 197,500 Shares issuable pursuant to the exercise of outstanding Common Stock purchase warrants (the "Private Placement Warrants") issued in connection with a private placement completed in January 1995 (the "Private Placement"); (iv) 25,380 Shares issuable upon conversion of 12% Contingent Convertible Subordinated Promissory Notes (the "Notes") issued in connection with the Private Placement (v) 15,000 Shares issuable pursuant to the exercise of outstanding Common Stock purchase warrants issued in consideration for services rendered to the Company (the "Service Warrants"); and (vi) up to 500,000 Shares issuable upon exercise of options granted pursuant to the 1990 Non-Executive Director Stock Option Plan (the "Directors' Plan").

The Shares are traded in the over-the-counter market and are included in the SmallCap Market of the Nasdaq Stock Market ("NASDAQ") under the symbol "DGSII". On October 3, 1996, the closing bid and asked prices for the Common Stock as reported by NASDAQ were \$5.9375 and \$6.00, respectively.

The Shares may be issued by the Company upon exercise of the Selling Agent Warrants and the Private Placement Warrants and upon exercise of options granted under the Directors' Plan. The Shares may be sold from time to time by the Selling Security Holders, or by their transferees. No underwriting arrangements have been entered into by the Selling Security Holders. The distribution of the Shares by the Selling Security Holders may be effected in one or more transactions that may take place on the over the counter market, including ordinary brokers transactions, privately negotiated transactions or through sales to one or more dealers for resale of the Shares as principals, at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices. Usual and customary or specifically negotiated brokerage fees or commissions may be paid by the Selling Security Holders in connection with such sales. The Selling Security Holders and intermediaries through whom such Shares are sold may be deemed "underwriters" within the meaning of the Act, with respect to the Shares offered.

THESE SECURITIES INVOLVE A HIGH DEGREE OF RISK.
SEE "RISK FACTORS."

THESE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE SECURITIES AND EXCHANGE COMMISSION NOR HAS THE COMMISSION PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The date of this Prospectus is October 10, 1996

PROSPECTUS SUMMARY

The following summary is intended to set forth certain pertinent facts and highlights from material contained in the body of this Prospectus. The summary is qualified in its entirety by the detailed information and financial statements appearing elsewhere in this Prospectus, the Company's annual report on Form 10-K for the Fiscal year ended September 30, 1995 (the "Form 10-K") and the Company's quarterly reports on Form 10-Q for the quarters ended December 31, 1995, March 31, 1996, and June 30, 1996 (the "Forms 10Q").

THE COMPANY

Digital Solutions, Inc. ("DSI" or "the Company"), was founded in 1969 as a payroll service company and has evolved into a leading provider of human resource management services to a wide variety of industries in 40 states.

DSI currently offers three general categories of services: (1) professional employer organization ("PEO") services, also known as employee leasing (2) employer administrative services, such as payroll processing, personnel and administration, benefits administration and tax filing; and, (3) contract staffing, or the placement of temporary and permanent employees. DSI currently furnishes payroll, employee leasing and contract staffing services to over 1,300 client organizations with approximately 5,100 worksite leasing and staffing employees, and believes that it currently ranks, in terms of revenues and worksite employee base, as one of the largest professional employer organizations in the United States. In addition, DSI places temporary help in hospitals and clinics throughout the United States through its Houston, Texas and Clearwater, Florida offices. The Company has three hubs operating in South Plainfield, New Jersey; Houston, Texas; and Clearwater, Florida and seven sales service centers in New York, New York; Ridgedale, Mississippi; Dallas, El Paso and Houston, Texas; Clearwater, Florida; and South Plainfield, New Jersey.

Essentially, the Company provides services that function as the personnel department for small to medium sized companies. The Company believes that by offering services which relieve small and medium size businesses of the ever increasing burden of employee related record keeping, payroll processing, benefits administration, employment of temporary and permanent specialized employees and other human resource functions, the Company will position itself to take advantage of a major growth opportunity during this decade and the next.

Recognizing the desire by many small businesses to be relieved not only of the human resource administrative functions, but also of the responsibility to manage employees and oversee operational tasks ancillary to their core business, the Company has formulated a strategy of emphasizing PEO ("employee leasing") and "outsourcing" services. In employee leasing, a service provider becomes an employer of the client company's employees and leases these employees to the client to perform their intended functions at the worksite. In outsourcing, the service provider is not only responsible for human resource administration but also assumes ultimate responsibility for management of the employees and their job functions. For example, a provider of outsourcing services could be engaged

by a hospital or clinic to manage the maintenance and operation of the facility. The medical staff would still be responsible for the medical functions but the physical plant would be managed by the provider.

Over the period 1990-1992, the PEO industry grew at an annual rate of 16.2%, according to an industry report, and has produced a relatively high growth path since 1984. DSI is focusing its future growth on the PEO and outsourcing industry. The Company's expansion program will focus on internal growth through the cross marketing of its PEO services to its entire client base and the acquisition of compatible businesses strategically situated in new areas or with a client base serviceable from existing facilities. While DSI continues to sell stand-alone employer services, such as payroll and tax filing, it will emphasize the PEO component of its service offerings. In addition, the PEO industry is characterized by relatively small and regionalized providers which offer a limited range of services to their clients. Accordingly, the Company believes opportunities exist for the acquisition of well situated independent PEO companies whose business may be integrated into the Company operations.

On November 21, 1994, the Company acquired certain business assets of Staff-Rx, Inc. and its subsidiaries, (collectively "Staff-Rx"). Staff Rx is engaged in the contract staffing business and places permanent and temporary medical personnel in hospitals, clinics and other medical facilities. The Company believes that the Staff-Rx customer base is well suited for employee leasing and intends to vigorously pursue this area. Staff-Rx has offices in Houston, Texas; Clearwater, Florida; and Dallas, Texas and conducts business in approximately 35 states. The assets acquired included the customer accounts of Staff-Rx, all books and records, and all owned and leased fixed assets utilized by Staff-Rx in its business operations and the right to use the names SkillMaster, Staff-Rx, RADS and Primedical. Certain Shareholders and key managerial personnel of Staff-Rx also entered into noncompetition agreements with the Company that contain certain restrictive covenants during the term of the agreement prohibiting competitive conduct. In exchange for the assets and the noncompetition agreements, the Company paid to Staff-Rx (i) \$200,000 in cash; (ii) a convertible promissory note in the principal amount of \$1,300,000; (iii) an earnout payment based on a formula payable during the two year period commencing October 3, 1994; and (iv) a profit payment also based on a formula for the same period. The Company also paid approximately \$266,000 representing expenses incurred by Staff-Rx in operating the business from October 3, 1994 to the closing.

In May, 1995, the Company consummated the acquisition, through its subsidiary, DSI Staff Connxions-Southwest, Inc., of certain employee leasing assets and related liabilities of Turnkey Services Inc., a Texas corporation ("Turnkey") with operations in Texas and New Mexico. Additionally, certain principals of Turnkey entered into non-competition agreements with the Company. The Company acquired the Turnkey assets for an aggregate purchase price of \$950,000, payable through a combination of \$783,750 in cash and 68,205 Shares. This Prospectus covers the 68,205 Shares issued as part of the consideration of the purchase price of Turnkey.

For an additional description of the Staff-Rx and Turnkey acquisitions, see "General Business Developments During the Last Fiscal Year" in the Form 10-K incorporated herein by reference.

The Company was organized under the laws of the State of New Jersey on November 25, 1969 and maintains executive offices at 4041 Hadley Road, South Plainfield, New Jersey 07080 where its telephone number is (908) 561-1200.

RISK FACTORS

An investment in the securities offered hereby involves a high degree of risk. The following factors, in addition to those discussed elsewhere in this memorandum, should be considered carefully in evaluating the Company and its business. An investment in the Securities is suitable only for those investors who can bear the risk of loss of their entire investment.

1. Recent Losses. The Company experienced a net loss of \$695,000 for the fiscal year ending September 30, 1992. The Company realized a net profit for the fiscal year ended September 30, 1993 of \$301,000 and a net profit of \$720,000 for the fiscal year ended September 30, 1994. However, due to fourth quarter charges in excess of \$3,500,000, the Company incurred a net loss for the fiscal year ended September 30, 1995 of \$3,316,000. The Company expects to realize net profits of approximately \$200,000 for the year ending September 30, 1996. There can be no assurance the Company will be able to operate profitably in the future. See also "MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS" in the Form 10-K and the Forms 10-Q incorporated by reference herein. See also "Recent Developments-Quarterly Loss".

2. Need for Additional Funds. There can be no assurance that the Company's current financial resources will be sufficient to maintain its operations or finance further Company development. Historically, the Company's cash flow from operations has been insufficient to maintain and/or expand operations. No assurance can be given that funds for the Company's requirements will be available or, if available, will be on commercially reasonable terms satisfactory to the Company. The final terms of such offering may result in additional dilution to the shareholders of the Company.

3. Security Interests; Restrictive Covenants. The Company has granted security interests with respect to substantially all of its assets to secure certain of its indebtedness. In the event of a default by the Company on its secured obligations, a secured creditor could declare the Company's indebtedness to be immediately due and payable and foreclose on the assets securing the defaulted indebtedness. Moreover, to the extent that all of the Company's assets continue to be pledged to secure outstanding indebtedness, such assets will not be available to secure additional indebtedness. The Company's loan agreement with its institutional lender restricts the ability of the Company to incur additional indebtedness. The terms of such agreement may limit the ability of the Company to obtain additional financing on terms favorable to the Company or at all. See "MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS" in the Form 10-K and the Forms 10-Q incorporated herein by reference.

4. Potential Acquisitions. The Company may at times become involved in discussions with potential acquisition candidates. However, there can be no assurance that the Company will identify and/or consummate an acquisition, or that such acquisitions, if completed, will be profitable. In addition, should the Company consummate an acquisition, such acquisition could

have an adverse effect on the Company's liquidity and earnings. Further, there can be no assurance that any financing received by the Company, if any, together with cash flow, will be sufficient to finance such acquisitions. In the event the Company consummates an acquisition, or obtains additional capital through the sale of debt or equity to finance such acquisition, current shareholders may experience dilution in their shareholder's equity.

5. Management of Growth. The Company completed two acquisitions during the past fiscal year and intends to continue to pursue a strategy of acquiring compatible businesses in the future, although it does not believe it is solely dependent upon acquisitions for future growth. The Company's growth is making significant demands on the Company's management, operations and resources, including working capital. To manage growth effectively, the Company will be required to continue to improve its operational, financial and managerial systems, procedures and controls, hire and train new employees while managing its current operations and employees. Historically, the Company's cash flow from operations has been insufficient to maintain and/or expand operations and there can be no assurance sufficient capital will be available in the future. Further, there can be no assurance the Company will be able to effectively manage its growth and the failure to do so would have a material adverse effect on the Company.

6. Concentration of Customer Base.. Although the Company has expanded its services to a number of industries, the Company's payroll service business continues to rely to a material extent on the construction industry. During the last fiscal year, construction related business accounted for approximately 18% of the Company's total gross margin. Accordingly, the continued slowdown in construction activities has affected, and may continue to affect the Company's revenues and profitability. The Company believes its reliance on the construction business will continue to decline as its customer base expands and becomes more diversified. In addition, substantially all of the Staff-Rx customer base is in the healthcare business. See "Business - Customers" in the Form 10-K incorporated herein by reference.

7. Competition. The payroll, temporary employee placement and the employee leasing industries are characterized by vigorous competition. The principal competitive factors are price and service. The Company believes that its major competitors with respect to its payroll and accounting services are Automatic Data Processing, Inc., Ceridian Corp. and Paychex, Inc. and with respect to employee placement (including temporary placements and employee leasing), Butler Arde, Tech Aid, Inc., Comp Health, Staff Leasing, Inc. and Administaff, Inc. These companies have greater financial and marketing resources than the Company. The Company competes with numerous companies in the employee leasing area. The Company also competes with manual payroll systems and computerized payroll services including banks, and smaller independent companies. There are no assurances that the Company in its existing or future lines of business will be able to compete effectively against its competitors in these industries.

8. Need for Temporary Personnel. The Company's subsidiaries, DSI Contract Staffing, Inc., and Staff Rx are temporary employment agencies which depend on a pool of qualified temporary employees willing to accept assignments for the Company's clients. The business of these subsidiaries is materially dependent upon the continued availability of such qualified temporary personnel, but there can be no assurance that such personnel will be available to the Company in the future. The inability of the Company to secure temporary personnel would have a material adverse effect on the Company's business.

9. Potential Liability. Through its Staff Rx subsidiary, the Company engages in the business of contract staffing of temporary and permanent healthcare professionals. The placement of such employees increases potential liability of the Company for negligence and professional malpractice of such employees. Although Staff Rx is covered by such liability insurance as the Company deems reasonable under the circumstances, there can be no assurance that any potential liability will be fully covered by insurance. Any significant adverse claim which is not covered by insurance may have a material adverse effect on the Company.

10. Effect of Healthcare Proposal. The Clinton Administration and Congress have proposed certain changes to the nation's healthcare system. Since the form of proposal which may be eventually adopted, if any, is not known at this time, there can be no assurance that the proposal adopted would not have a material adverse effect on the business of the Company.

11. Restrictions on Payment of Dividends. The Company has not paid any dividends on its Common Stock since its inception and does not contemplate or anticipate paying any dividends on its Common Stock in the foreseeable future. Earnings, if any, will be retained and used to finance the development and expansion of the Company's business. The Company may not pay dividends on its Common Stock unless the Company has earnings or capital surplus. Therefore, there can be no assurance whether or to what extent dividends will be paid on the Shares. See "DIVIDEND POLICY" and the financial statements and notes contained in the Form 10-K and Forms 10-Q incorporated herein by reference.

12. Rule 144 Sales; Selling Security Holders Registration. Of the 18,761,166 issued and outstanding shares of the Company's Common Stock prior to this Offering, approximately 4,679,481 shares may be deemed "restricted shares" and, in the future, may be sold in compliance with Rule 144 under the Act. Rule 144 provides that a person holding restricted securities which have been outstanding for a period of two years after the later of the issuance by the Company or sale by an affiliate of the Company, may sell in brokerage transactions an amount equal to 1% of the Company's outstanding Common Stock every three months. A person who is a "non-affiliate" of the Company and who has held restricted securities for over three years is not subject to the aforesaid volume limitations as long as the other conditions of the Rule are met. Possible or actual sales of the Company's Common Stock by certain of the Company's present shareholders under Rule 144 may, in the future, have a depressing effect on the price of the Company's Common Stock in the open market. In addition, the Company has previously registered 6,500,000 shares reserved under its stock option plans and approximately 6,700,000 shares on behalf of selling stockholders. The sale of these shares may have a

depressive effect on the market for the Company's Common Stock. See "DESCRIPTION OF SECURITIES."

13. Possible Restriction on Market Making Activities. This Prospectus covers the sale of securities by Selling Security Holders. Certain market makers of the Company's securities will be Selling Security Holders under the Prospectus, and such market makers may be required to cease market making activity for the period commencing nine business days prior to the commencement of the distribution of securities offered hereby and ending after the distribution is completed. The cessation of market making activities by these market makers may have a depressive effect on the market for the Company's securities.

14. Authorization and Discretionary Issuance of Preferred Stock; Possible Anti-takeover Effects. The Company's Certificate of Incorporation authorizes the issuance of "blank check" preferred stock with such designations, rights and preferences as may be determined from time to time by the Board of Directors up to an aggregate of 5,000,000 shares of Preferred Stock. Accordingly, the Board of Directors is empowered, without stockholder approval, to issue preferred stock with dividend, liquidation, conversion, voting or other rights which would adversely affect the voting power or other rights of the holders of the Company's Common Stock. In the event of issuance, the preferred stock could be utilized, under certain circumstances, as a method of discouraging, delaying or preventing a change in control of the Company, which could have the effect of discouraging bids for the Company and thereby prevent stockholders from receiving the maximum value for their shares. The Company has no present intention to issue any additional shares of its preferred stock in order to discourage or delay a change of control of the Company. However, there can be no assurance that preferred stock of the Company will not be issued at some time in the future. See "DESCRIPTION OF SECURITIES--Preferred Stock."

15. Possible Volatility of Stock Price. The market price for the Company's Common Stock has experienced wide fluctuations which have not necessarily been related to the performance of the Company. Factors such as the Company's operating results, announcements of material events by the Company or its competitors, as well as the general state of the securities markets and the economy, may have a significant impact on the market price of the Company's Common Stock. See "Market Information" in the Form 10-K.

RECENT DEVELOPMENTS

PRIVATE PLACEMENT

The Company offered and sold, in a private placement to "accredited investors", 2,293,929 Shares, at prices ranging from \$1.20 to 4.00 per Share, for aggregate gross proceeds of approximately \$5,100,000 during the period commencing November 1995 to June 15, 1996 (the "November 1995 Offering"). The Company paid selling commissions of 8% of the

purchase price of the Shares sold in the November 1995 Offering and issued Selling Agent Warrants equal to 10% of the Shares sold by all selling agents authorized to accept such commissions. The Company issued 252,013 Selling Agent Warrants in the November 1995 Offering, of which 100,000 Selling Agent Warrants were issued to an investor purchasing 600,000 Shares in the November 1995 Offering. In addition, the Company paid the selling agents a nonaccountable expense allowance of 1% of the aggregate offering price of the Shares sold by such selling agent. This Prospectus covers the Shares sold in the November 1995 Offering and the Shares issuable upon exercise of the Selling Agent Warrants.

TERMINATION OF FLORIDA ACQUISITION

On March 4, 1996, the Company announced that it had terminated, by mutual agreement, its agreement in principal to purchase the assets of a Florida based PEO. The decision to terminate the acquisition does not reflect a change in the Company's business strategy. The Company will continue to pursue a strategy of expansion based on the acquisition of other PEOs.

MANAGEMENT CHANGES

The Company's Board of Directors, at its regularly scheduled meeting following the Company's annual meeting of Shareholders, elected George J. Eklund, the Company's President, as Chief Executive Officer. Mr. Eklund will continue to serve as President. Raymond J. Skiptunis, the Company's former Chief Executive Officer, was elected to serve as Corporate Development Officer, a newly created office, where he will concentrate on financing and acquisition activities.

AMENDMENT OF DIRECTORS' PLAN

The 1990 Non-Executive Director Stock Option Plan was amended by the Board of Directors and approved by the shareholders at the Company's 1996 annual meeting. The proposal (i) reduced the number of options granted to non-executive directors upon joining the Board to 5,000 options (ii) reduced the number of options granted for each year of service to 5,000 options and (iii) authorized each non-executive director to purchase shares of the Company's Common Stock during the initial year of service at an exercise price equal to 80% of the current market of the stock the time of purchase up to an aggregate purchase price of \$50,000. The shares of Common Stock reserved for issuance under the Directors' Plan are covered by this Prospectus.

QUARTERLY LOSS

On October 9, 1996, the Company announced that it expects to report a net loss for the quarterly period ended September 30, 1996, of approximately \$600,000 on more than \$27 million in revenues. Included in the quarterly results, the Company will be reporting a one-time charge in excess of \$200,000 for severance payments. The Company expects net income for the year ended September 30, 1996, of approximately \$200,000 compared to a \$3.3 million net loss reported in the prior fiscal year. Revenues for fiscal year 1996 will be approximately \$101 million, or a 36 percent increase over fiscal year 1995. The Company also announced that to improve its profit performance in fiscal 1997, the Company has reduced the number of its employees by 12 percent and has replaced the entire management team in its Jackson, Mississippi office.

PROPOSED ACQUISITION

Also on October 9, 1996, the Company announced that it had signed a letter of intent to acquire the assets of a PEO company headquartered in the State of Texas. The acquisition is expected to add approximately \$15 million to the Company's annual revenues. The acquisition is subject to due diligence and negotiation and execution of a final agreement. There can be no assurance that the acquisition will be consummated. The Company also stated that it will continue to pursue other acquisitions that meet its growth and geographic criteria.

DESCRIPTION OF SECURITIES

The Company's authorized capitalization consists of 40,000,000 shares of Common Stock, par value \$.001 per share and 5,000,000 shares of Preferred Stock, par value \$.10 per share, which may be issued in one or more series. The following summary description of the Common Stock and Preferred Stock is qualified in its entirety by reference to the Company's Articles of Incorporation.

Common Stock

Each share of Common Stock entitles its holder to one non-cumulative vote per share and, subject to the preferential rights of the Preferred Stockholders, the holders of more than fifty percent (50%) of the shares voting for the election of directors can elect all the directors if they choose to do so, and in such event the holders of the remaining shares will not be able to elect a single director. Holders of shares of Common Stock are entitled to receive such dividends as the Board of Directors may, from time to time, declare out of Company funds legally available for the payment of dividends. Upon any liquidation, dissolution or winding up of the Company, holders of shares of Common Stock are entitled to receive pro rata all of the assets of the Company available for distribution to shareholders after the satisfaction of the liquidation preference of the Preferred Stockholders.

Shareholders do not have any pre-emptive rights to subscribe for or purchase any stock, warrants or other securities of the Company. The Common Stock is not convertible or redeemable. Neither the Company's Certificate of Incorporation nor its By-laws provide for pre-emptive rights.

Preferred Stock

The Preferred Stock may be issued in one or more series, to be determined and to bear such title or designation as may be fixed by resolution of the Board of Directors prior to the issuance of any shares thereof. Each series of the Preferred Stock will have such voting powers (including, if determined by the Board of Directors, no voting rights), preferences, and other rights as determined by the Board of Directors, with such qualifications, limitations or restrictions as may be stated in the resolutions of the Board of Directors adopted prior to the issuance of any shares of such series of Preferred Stock.

Purchasers of the Shares offered hereby should be aware that the holders of any series of the Preferred Stock which may be issued in the future could have voting rights, rights to receive dividends or rights to distribution in liquidation superior to those of holders of the Common Stock, thereby diluting or negating the voting rights, dividend rights or liquidation rights of the holders of the Common Stock.

Because the terms of each series of Preferred Stock may be fixed by the Company's Board of Directors without shareholder action, the Preferred Stock could be issued with terms calculated to defeat a proposed takeover of the Company, or to make the removal of the Company's management more difficult. Under certain circumstances, this could have the effect of decreasing the market price of the Common Stock. Management of the Company is not aware of any such threatened transaction to obtain control of the Company.

PLAN OF DISTRIBUTION

The Shares may be sold from time to time by the Selling Security Holders, or by their transferees. No underwriting arrangements have been entered into by the Selling Security Holders. The distribution of the Shares by the Selling Security Holders may be effected in one or more transactions that may take place on the over the counter market, including ordinary brokers transactions, privately negotiated transactions or through sales to one or more dealers for resale of the Shares as principals, at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices. Usual and customary or specifically negotiated brokerage fees or commissions may be paid by the Selling Security Holders in connection with such sales. The Selling Security Holders and intermediaries through whom such Shares are sold may be deemed "underwriters" within the meaning of the Act, with respect to the Shares offered.

Donald & Co. Securities, Inc., The Volume Investor, Inc., Argent Securities, Inc., and Janney Montgomery Scott Inc. (collectively, the "Broker-Dealers") are Selling Security Holders. The Broker-Dealers are registered broker dealers and are market-makers in the Common Stock. Under certain circumstances Rule 10b-6 promulgated under the Securities Exchange Act of 1934 may preclude the Broker-Dealers from making a market in any of the Company's securities for up to nine business days prior to the sale of their Shares pursuant to this Prospectus and continuing until they have completed the distribution of their Shares. The cessation of market making activities by the Broker-Dealers during the distribution of the Shares offered hereby may have a material adverse effect on the market, including price, for the Common Stock.

REPORTS TO SHAREHOLDERS

The Company distributes annual reports to its stockholders, including financial statements examined and reported on by independent public accountants, and will provide such other reports as management may deem necessary or appropriate to keep stockholders informed of the Company's operations.

LEGAL MATTERS

The legality of the offering of the Shares will be passed upon for the Company by Goldstein & DiGioia, LLP, 369 Lexington Avenue, New York, New York 10017.

EXPERTS

The financial statements of the Company for the fiscal years ending as of September 30, 1995 and 1994 and for each of the three year periods ending September 30, 1995 have been included in the Company's Form 10-K for the fiscal year ended September 30, 1995, and incorporated herein and in the Registration Statement by reference, in reliance upon the report of Arthur Andersen LLP, independent public accountants, appearing in the Form 10-K, and upon the authority of said firm as experts in accounting and auditing.

ADDITIONAL INFORMATION

The Company has filed a Registration Statement under the Act with the Securities and Exchange Commission (the "Commission"), with respect to the securities offered by this Prospectus. This Prospectus does not contain all of the information set forth in the Registration Statement. For further information with respect to the Company and such securities, reference is made to the Registration Statement and to the exhibits and schedules filed therewith. Each statement made in this Prospectus referring to a document filed as an exhibit to the Registration Statement is qualified by reference to the exhibit for a complete statement of its terms and conditions. The Registration Statement, including exhibits thereto, may be inspected without charge to anyone at the office of the Commission, and copies of all or any part thereof may be obtained from the Commission's principal office in Washington, D.C. upon payment of the Commission's charge for copying.
