The Form 10Q of TeamStaff, Inc. for the quarter ended December 31, 2002 cannot be filed without unreasonable expense and effort due to its inability to complete the necessary financial information and analysis so as to allow for a complete review of its financial statements with the Audit Committee of the Board and its independent accountants. As previously reported in its Form 10k filed with the Sec on February 10, 2003 for the year ended September 30, 2002, and in several Reports on Form 8K, TeamStaff has recently changed its independent accountants and has restated a certain portion of its financial statements for the September 30, 2001 fiscal year, and these events have impeded management's ability to review its financial condition and prepare the Form 10Q in a timely manner.

Management estimates that net income for the fiscal quarter ended December 31, 2002 will not exceed approximately \$100,000 as compared to \$626,000 for the corresponding quarter of fiscal year 2002. On a per share earnings basis, management further estimates that the results of the quarter ended December 31, 2002 will not exceed \$0.01 per share, as compare to \$0.04 for the same quarter of fiscal year 2002. These figures represent estimates by management, as management has not yet finalized its analysis of its financial results. The decrease in income and earnings is primarily reflective of changes in the business of TeamStaff's medical staffing business. These changes are the result of increased competition in the industry which has effected the gross margins in pricing of services, and a corresponding increase in selling, general and administrative expenses by management to increase staff, accounting and technology systems. Additionally, the results for the quarter will reflect an increase in the PEO division revenue and income.
